Customising the Tile Screen

Customizing the Tile Screen

The tile screen is the standard work screen on the **LKT - Lions Comfort Tablet**. Initially, the tablet was set up for normal use as a "work tablet". In this process, the tiles are also installed. In a further set-up stage, these tiles are now adapted to create the LKT a tablet of your choice. This is done in six steps:

1. Deleting the tiles that call up unwanted programmes, e.g. NDR.
2. Setting up already installed programmes (apps) as tiles.
3. Install new programmes from the Play Store and set them up as tiles.
4. Formatting the tiles and the tile field.
5. Move tiles to sort them.
6. Customizing the tile field display: Picture, font.
7. Enter personal data in the corresponding programmes (apps),
see instructions for personalizing.
(This entry should only be made by a trusted person, together with the owner / user of the tablet).

Lock User Interface

Let us connect you

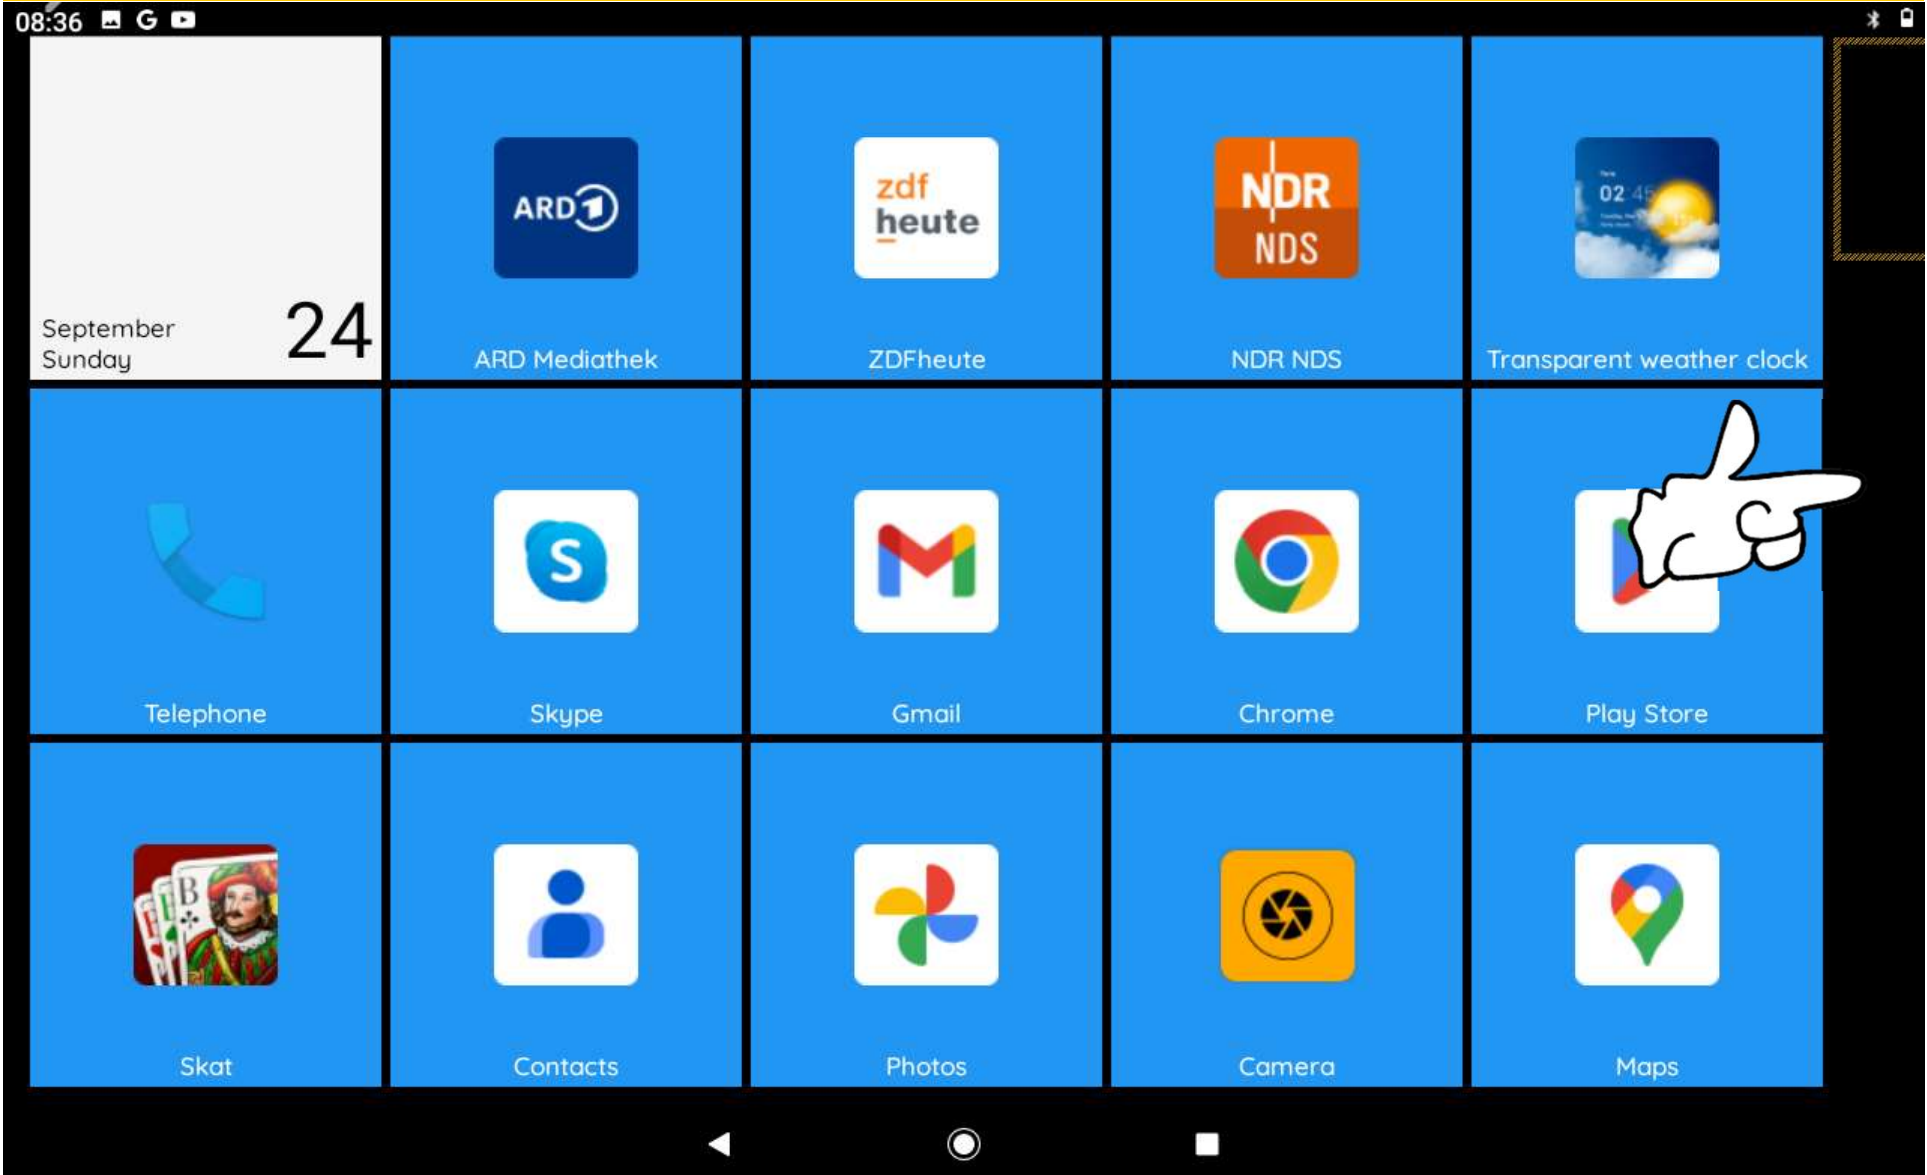

Lock

The tile screen should be locked after setup to avoid accidental changes (further programmes, size of the tiles). To do this, carry out the following operating steps:

1. Tap the tile screen at a free spot and drag it to the left.
2. Press and hold the plus sign in the black tile with the red border until the settings menu panel appears.
(If you press briefly, the menu panel "Add" appears. Correction: Tap briefly on a blank area of the screen or on "1 step back").
3. Select "Launcher settings" in the menu panel.
4. On the 'Launcher settings' panel, tap 'Edit lock' or the corresponding status box in the right-hand column. (The status box turns black and gets a tick).
5. Press the "Home" button: The screen appears without a plus tile.

Unlock

The work screen - tile interface - will be locked after the set-up. This means that no more changes (further programmes, size of the tiles, shortcuts) can be made. If changes are still desired, the screen must be unlocked as follows:

1. Drag the icons on the upper edge downwards until the cogwheel is visible.
2. In the settings list, select "Settings", press "Apps and notifications" in the settings list.
3. Press 'Default apps' in the new list.
4. Select "Start App" in the new list.
5. Select "Quickstep / Square Home": Select "Quickstep".
6. The start screen appears: drag upwards.
7. Select "Launcher settings".
8. Delete "Edit lock" in the right-hand list.
9. Select "Step back" in the bottom line.
10. Select "Settings" (= cogwheel).
11. Select "Apps and notifications".
12. Select "Standard Apps".
13. Select "Start App"
14. Select "Quickstep / Square Home": select "Square Home"
